Our Religious Brains: What Cognitive Science Reveals about Belief, Morality, Community and Our Relationship with God

By Rabbi Ralph D. Mecklenburger

Jewish Lights. Hardcover. Book Condition: New. Hardcover. 224 pages. Dimensions: 9.0in. x 6.1in. x 1.0in. A Revolution in Human Self-Understanding Is Underway What Does It Mean for Religion and Our Belief in God The brain and consciousness are themselves awe-inspiring. So learning about them no more undermines religion than learning about how symphonies and paintings are crafted takes away from our appreciation of music and art. Science alone does not provide the ultimate answers or firmly rooted values for which we yearn. But religion alone does not have all the answers either. We are blessed, as moderns, with both. from the Introduction This is a groundbreaking, accessible look at the implications of cognitive science for religion and theology, intended for laypeople. Avoiding neurological jargon and respectful to all faiths, it examines: Current theory on how our brains construct our world in order to guide us safely through life, creating and appreciating meaning as we go. What religious experience is as it plays out in our brains. How modern science challenges historic ideas about free will and undermines the religious concept of the soul as a meta-physical entity separable from the body. What cognitive science reveals about our need for community. Why we should be...
