

Occasional Papers, Engineer School, United States Army Volume 18-27

Filesize: 5.05 MB

Reviews

This pdf might be well worth a study, and a lot better than other. It really is simplistic but excitement inside the fifty percent in the book. Its been printed in an exceedingly straightforward way which is just after i finished reading this ebook through which really modified me, modify the way i believe. (Derick Brekke)

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 72 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1905-01-01 Excerpt: . . . to the lower slope of Dam No. 4, in 1903, my attention was called by Mr. W. S. Overstreet, in charge of the repair work, to some pieces of oak showing attacks from hellgrammite, but these were not marked, and I paid very little attention to the matter. It is probable that if the upper slope of this dam was exposed the effect of the attack of this insect would be much more apparent. I believe that the loose condition of the backing at these two dams gives conditions particularly favorable for the hellgrammite and accounts for the fact that they do not seem to have done much damage to other dams on Green River. amount of surface covered was insufficient to stop all leaks, and further work remains to be done. 5. The following quotations from Leland O. Howards Insect Book give a brief description of the dobson, or hellgrammite (*Corydalis Cornuta*): The adult is a large creature, having a wing spread of more than four inches, and possessed, in the female, of powerful biting jaws, with which it can give a severe pinch to the skin of the person who handles it carelessly. The female lays her eggs in white chalky-looking masses about the size of a nickel five-cent piece. These masses are somewhat convex and contain about three thousand small eggs set on end. They are deposited on the leaves of trees overhanging the water, or on rocks, or the piers of bridges,...
