

Iran: The Essential Guide to a Country on the Brink

Filesize: 5.47 MB

Reviews

This book will not be simple to get going on reading but extremely exciting to read through. Yes, it can be play, still an interesting and amazing literature. I am very easily could possibly get a delight of reading a written book.

IRAN: THE ESSENTIAL GUIDE TO A COUNTRY ON THE BRINK

Wiley. Paperback. Book Condition: New. Paperback. 240 pages. Dimensions: 8.2in. x 5.5in. x 0.7in. On June 24, 2005, after nearly ten years of supporting liberal reform, the people of Iran surprised the world by electing the conservative mayor of Tehran, Mahmoud Ahmadinejad, as their new president. Soon after, the new president announced Iran would restart its uranium enrichment program, drawing international criticism and condemnation from leaders in Europe and the United States. Many observers suspect it is the desire to produce not nuclear energy but nuclear weapons that lies behind Iran's controversial decision. Ever since President George W. Bush described Iran, Iraq, and North Korea as the Axis of Evil, Iran has garnered increased international attention and threatens to become the new focus of European and American foreign policy. Now you can have at your fingertips up-to-date, must-know details on this complex, pivotal country—straight from one of the most trusted sources of information around the globe. The first in a major new series from Encyclopedia Britannica, Iran presents a balanced, sophisticated examination of Iran's social, cultural, and political landscape, past and present. From the constitutional revolution to the hostage crisis to weapons of mass destruction, this thorough guide provides the necessary background to comprehend all the important, ongoing issues surrounding this enigmatic country. Information on such leaders as Cyrus the Great and Nobel Peace Prize winner Shirin Ebadi, as well as on historical events like the Iran-Contra Affair and the Iran-Iraq War, place current developments into the broader context of world history, the Muslim world, the War on Terror, and the push for democratic reform in the Middle East. Every concise entry—from Afghanistan and Ayatollah Khomeini to Shariah law and the Shah—promotes the deeper understanding of issues and events that only Encyclopedia Britannica can provide. Since 1768, Encyclopedia Britannica has been...
