In the Pacific Ocean, a U.S. Naval ship's only enlisted quartermaster responsible for navigation suffers a heart attack at the start of an 11,000 mile crossing, yet they continue their journey. In each of these cases the Navy personnel found that a crisis imposed stringent limits which then presented opportunities for a resourceful solution when using the proper problem-solving techniques. In this book you'll learn that there is always a better way. It's only a matter of belief and exploration that can lead to new, better solutions. We'll guide you through real-world Navy examples, take a look at the Apollo program that could have been and analyze an innovative solution for a manned Mars mission.
